DETAILED ACTION

Election/Restrictions

This application is in condition for allowance except for the presence of claims 3 and 15-20 directed to non-elected species. The election dated November 14, 2006 the applicant elected Species II without traverse. As noted in the Final Office Action dated July 17, 2007 claims 3 and 15-20 drawn to Species V and VI are mutually exclusive species, distinct from claim 1, since claim 1 now requires that the pin pass through a shoulder of one the nuts to a linking element coupled to the other nut. Accordingly, claims 3 and 15-20 have been cancelled.

Allowable Subject Matter

Claims 1, 2, 5, 7-12 and 14 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor render obvious the claimed combination wherein comprising a pin, through which a conductive wire passes, passing through a shoulder of one nut and an element coupled to the other nut and wherein the pin includes a spring that operates to generate a parting force on the pin so that the pin breaking by shearing causes two portions of the pin separated by the pin breaking to move apart.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
